## Science & Technology Modules

### ACTIVITIES

#### SPACE & BEYOND:

Campers design and launch high flying solid fuel rockets that soar! They see them hit the clouds and parachute back to earth! Always good for a cheer or two!

#### RINGOES 500!:

Encounter the thrill of victory. Campers race self-designed & constructed high speed miniature dragsters in head-to-head competition. Always a show stopper.

#### WHAT GOES AROUND COMES AROUND:

Campers get to design and manufacture their own BOOMERANG! Learn the basics of woodworking, design and flight mechanics. Mix in a little outdoor activity for a great time by all.

#### SEW WHAT!:

Mark out a pattern, cut to design, and sew a carry-all bag to bring all the T-Recs Camp stuff home with you.

#### 7TH & 8TH GRADE T-RECS EXPLORER SERIES—LASER HARP:

A computer controlled Harp that senses your hand movements to play music on your Bluetooth enabled phone. A one-of-a-kind project.

We walk you through the steps of building from scratch and programming. No prior experience necessary!
